

Program 3rd European networking day in Vienna

Dear Eden associate all over Europe!

We are pleased to welcome you to the third Eden networking day. This time in Vienna, Austria.

In all the European countries in which the Eden ó Alternative® is implemented, many important experiences were made over the last 1.5 years. The philosophy has been developed further, for that we would like to share this valuable know how, and learn from each other. For these reasons the Eden ó Alternative® Institute is organizing this event.

The networking day in Vienna distinguishes itself from the former events by implementing workshops where different topics are worked on. This was suggested from participants of former networking days and we are pleased to follow these. On the second day the different groups will present their results to the whole assembled group.
